BAHÍA DE LOS SUEÑOS

THE BAY OF DREAM

The romantic coastline of Bahía de los Sueños is dotted with the same authentic fishing villages, secret coves and magnificent desert sierras that the Spanish settlers found when they first arrived. Just thirty miles southeast of La Paz, the community consists of six hundred custom home sites and four hundred and fifty planned casita-style residences.

These exquisitely designed custom homes, built into the secluded landscape, and a Tom Doak-designed golf course provide, a carefree atmosphere to experience the verdant surroundings. All homes are rendered in authentic Baja architecture that captures the spirit and color of their environment, as well as the personalities of its inhabitants. The homes are designed to blend the tranquility of the indoors with energy of the surroundings, creating an experience of living with the ocean and land that has nurtured the spirit of the local people for centuries. Villas

that front the harbor and golf casitas in exclusive enclaves thrive on the vibrancy of the Bahía village, while others look out over private coves with infinite sea vistas.

La Paz and the region surrounding Bahía de los Sueños are also among the top sports fishing destinations in the world. Cerralvo Island, just north of the community, boasts warm waters and unique swirling currents that form a nutrient-rich environment supporting a vast underwater ecosystem: a treat for divers and sports fishing enthusiasts alike.
